

Junior Rangers of the Blackstone River Valley

My Leaf Rubbing

When leaves fall from the tree, it is a great time to look at them closely and make a great piece of art. Place a leaf or bark under this paper inside the square below. Then rub the leaf or bark using your pencil or a crayon. Only use leaves found on the ground.

You Need: crayons or a pencil , clipboard, great looking leaves.

Can you see the veins in the leaves? The veins bring nutrients to all of the leaves.
